**4 MATCHING** 1 e · 2 d · 3 a · 4 b · 5 c**5 BACK TO THE BOARD**

- 100 pts – Elizabeth I.  
200 pts – Queen Elizabeth I.  
600 pts – The theatre.

## BEFORE YOU PRINT

**WILD CARD 600 – WRONG ANSWER ON THE GAME SLIDE**

The board answers “Newton → Nelson → Elizabeth → Lennon → Diana”. By year of birth the correct order is Elizabeth I (1533) → Newton (1642) → Nelson (1758) → Lennon (1940) → Diana (1961). Task 2 on Sheet VII uses the corrected order.

**CHILDHOOD & EARLY LIFE 300 – PRONOUN MISMATCH**

The slide asks “Who was raised by *her* strict aunt Mimi?” but the answer is John Lennon. It should read *his*. Corrected in this pack.

**NEWTON'S TEXT – THREE POINTS THAT DIFFER FROM THE HISTORICAL RECORD**

(1) In the text the grandmother wants him to farm; historically it was his mother Hannah who took him out of school to run the farm. (2) A prism is a triangular *prism*, not a “pyramid”. (3) Newton's reflecting telescope (1671) impressed the *Royal Society*, which led to his election as a Fellow; there is no reliable source for the king congratulating him. The exercises test the text as written, so students are never marked wrong for these.

**SPELLING**

The Newton text uses American spellings (“colors”) while the rest of the pack and the game use British ones (“colours”). Left as in the original. Change it in *build/content.py* if you want one convention throughout.

**HOW THE PACK MAPS ONTO THE GAME**

Every item on the person sheets and on the Mixed Round is built on a fact that appears on the Jeopardy board, so the handouts and the game test the same knowledge. The exception is Charles Darwin (Sheet IV) – not on your board at all, so task 5 there offers three questions you can add to it instead. Suggested order: read the sheet → do the exercises → play the game with the texts face down.
