## BEFORE YOU PRINT

### WILD CARD 600 – WRONG ANSWER ON THE GAME SLIDE

The board answers “Newton → Nelson → Elizabeth → Lennon → Diana”. By year of birth the correct order is Elizabeth I (1533) → Newton (1642) → Nelson (1758) → Lennon (1940) → Diana (1961). Task 2 on Sheet IV uses the corrected order.

### CHILDHOOD & EARLY LIFE 300 – PRONOUN MISMATCH

The slide asks “Who was raised by *her* strict aunt Mimi?” but the answer is John Lennon. It should read *his*. Corrected in this pack.

### NEWTON'S TEXT – THREE POINTS THAT DIFFER FROM THE HISTORICAL RECORD

(1) In the text the grandmother wants him to farm; historically it was his mother Hannah who took him out of school to run the farm. (2) A prism is a triangular *prism*, not a “pyramid”. (3) Newton's reflecting telescope (1671) impressed the *Royal Society*, which led to his election as a Fellow; there is no reliable source for the king congratulating him. The exercises test the text as written, so students are never marked wrong for these.

### SPELLING

The Newton text uses American spellings (“colors”) while the rest of the pack and the game use British ones (“colours”). Left as in the original. Change it in *build/content.py* if you want one convention throughout.

### HOW THE PACK MAPS ONTO THE GAME

Every item in tasks 1–5 on Sheets I–III#8211;5 on Sheets I–III, and every item on Sheet IV, is built on a fact that appears on the Jeopardy board, so the handouts and the game test the same knowledge. Suggested order: read the sheet → do the exercises → play the game with the texts face down.
