

ISAAC NEWTON

1642 – 1727

Scientist · Mathematician · Astronomer

The man who never stopped looking

READ THE TEXT

Paragraph numbers help you find the answers.

- 1** Isaac Newton was born on December 25, 1642, in England. His childhood was difficult. His father died shortly after he was born. His mother remarried and left him with his grandmother, Marjorie. Newton lived on a boring farm and spent most of his time alone.
- 2** His grandmother wanted him to be a farmer and take care of pigs. But Newton was not interested in farming. He preferred to watch the rain, the wind, and the grass. His grandmother did not like his “observation.” When he was 12, his mother and grandmother sent him to school. He stayed at the house of a pharmacist, Mr. Clark. There he discovered a library with books on chemistry, mathematics, and astronomy. He read many of them and learned a lot.
- 3** After a few years, his mother took him away from school to work on the farm again. One day, he had to guard the pigs, but he was not paying attention. He was thinking about nature and the books he had read. The pigs escaped and destroyed the crops. After this failure, his uncle William convinced his mother to send Newton to Cambridge University.
- 4** At Cambridge, Newton had to work as a servant to pay for his studies. He cleaned rooms and swept stairs, but he did not care. He read all the important science books of that time.
- 5** In 1665, something terrible happened. The plague arrived in London from ships. Thousands of people died every day. Newton left Cambridge and returned to his family’s farm. The village was safer and cleaner. There, he had time to think and observe nature again. During this time, he made his most important discoveries.
- 6** First, he experimented with light and colors. He bought a glass pyramid called a prism. He let a single ray of sunlight pass through it. The white light became a rainbow of many colors. He proved that white light is a combination of all colors. He also built the best telescope of his time, and the King of England congratulated him.
- 7** Then came his most famous idea. One day, in the garden, he saw an apple fall from a tree. He asked himself: “Why do objects fall to the ground? Is there a force that pulls them?” After many calculations and experiments, he discovered the force of gravity. He understood that the Earth attracts all objects. The apple falls because of gravity. But gravity does not work only on Earth. All bodies in the universe attract each other. The planets stay in orbit around the Sun because of gravity. The Moon attracts water in our oceans and creates tides. Gravity is like a string that holds the planets in their places.
- 8** Newton created three important laws of motion. With these laws and the law of gravity, he could explain how any object moves. He became the most famous scientist in the world, admired by kings and queens. He continued to observe nature and kept a telescope on his roof.
- 9** Today, his formulas help us build cars, bridges, and rockets for space travel. Newton said: “Remember me and my apple.” His story is the story of a man who never stopped looking and thinking.

“Remember me and my apple.”

Paragraph numbers help you find the answers.

- 1** John Lennon was born on October 9, 1940, in Liverpool, England. It happened during the war. He was named John Winston after his grandfather and Prime Minister Churchill. John's parents separated, and his strict aunt Mimi raised him.
- 2** When John was 15, his mother bought him his first guitar. Before that, he learned to play the banjo and harmonica. In 1956, he formed his first band, The Quarrymen. Later, this band became The Beatles. In 1957, John met Paul McCartney at a church party. They became great friends and wrote songs together.
- 3** In the 1960s, The Beatles became very famous all over the world. John sang and played guitar. In 1962, he married Cynthia Powell. They had a son, Julian.
- 4** In 1966, John said that The Beatles were more popular than Jesus. This caused a big scandal. In 1969, he returned his MBE medal to the Queen. He protested against the Vietnam War.
- 5** In 1969, John married for the second time. His wife was artist Yoko Ono. Together, they did peace actions – “bed-ins” in Amsterdam and Montreal.
- 6** In 1970, The Beatles broke up. John started a solo career. His first solo album came out in 1970. In 1971, he recorded his famous song “Imagine” about peace.
- 7** In the 1970s, John had problems with the American government. President Nixon wanted to send him out of the USA because of his anti-war views. From 1973 to 1975, John lived apart from Yoko. This period is called his “lost weekend.”
- 8** On October 9, 1975, John and Yoko had a son, Sean. It was John's birthday on the same day! After that, John did not work as a musician for five years. He stayed at home and raised his son.
- 9** In 1980, John came back to music with a new album, Double Fantasy. Sadly, on December 8, 1980, a crazy fan killed him outside his home in New York City. But John Lennon will always stay in people's memory as a great musician and a fighter for peace.

“A great musician and a fighter for peace.”

CHARLES DARWIN

1809 – 1882

Naturalist · Geologist · Author

Ask questions. Discover the truth.

READ THE TEXT

Paragraph numbers help you find the answers.

- 1** Charles Darwin (1809–1882) was a British scientist who studied nature and animals during the Victorian era. He was born in Shrewsbury, England, and died in Kent.
- 2** Darwin grew up in a wealthy family. His father, a doctor, hoped Charles would follow the same path, but Charles was far more drawn to nature than to his studies. At university he showed little interest in his lessons, preferring instead to explore the natural world and collect beetles and birds. Much of what he learned came not from textbooks but from his own observations and curiosity.
- 3** Adventurous by nature, Darwin loved exploring rainforests and climbing mountains in search of new plants and animals. At the age of 22, he joined a voyage around the world that lasted five years — a journey that would go on to change the course of science.
- 4** Through his observations during and after the voyage, Darwin developed the theory of evolution, proposing that all living things, including humans, share common ancestors. It was a radical idea for its time, offering an answer to a question that had long puzzled naturalists: how do species change over time? His theory reshaped the way people understood the natural world.
- 5** Later in life, Darwin married his cousin Emma, and together they had children.
- 6** Today, Darwin's theory remains a cornerstone of modern science and is taught in schools around the world, having fundamentally changed how we understand nature.

WORDS TO KNOW

nature – plants, animals and everything in the natural world

beetle – a small insect with hard wings

observation – watching something carefully to learn about it

ancestor – someone who lived a long time before you

wealthy – having a lot of money

voyage – a long journey by ship

evolution – the slow change of plants and animals over a very long time

species – a group of animals or plants of the same kind

ELIZABETH I

1533 – 1603

Queen of England · The Virgin Queen

She kept the power herself

READ THE TEXT

Paragraph numbers help you find the answers.

- 1** Elizabeth was born in 1533. Her parents were King Henry VIII and Anne Boleyn. Her father was not happy because he wanted a son. When Elizabeth was two years old, her mother was killed. The young girl went to live at Hatfield Palace, where she got a very good education. By the age of thirteen, she spoke several languages and was a good writer.
- 2** She became queen in 1558. Many men from different countries wanted to marry her, but she said no to all of them. She never married because she wanted to keep all the power herself. During her reign, she had a big conflict with Spain. Spain was a big, rich, and Catholic country, but England was smaller and Protestant. In the 1580s, the two countries fought at sea. English sailors were fast and clever, so Spain never won.
- 3** The Queen had time for other things and loved the theatre very much. Her favourite writer was William Shakespeare, and his actors often performed plays at her palace. As a young woman, Elizabeth was ill with smallpox, and the illness left marks on her face. To hide them, she covered her face with thick white make-up and wore a big orange wig.
- 4** Elizabeth died on 24 March 1603. She was queen for 44 years. Nobody knows exactly why she died, but the white make-up was a poison, and it perhaps killed her slowly. Today, she is buried in Westminster Abbey.

BEFORE YOU PRINT

WILD CARD 600 – WRONG ANSWER ON THE GAME SLIDE

The board answers “Newton → Nelson → Elizabeth → Lennon → Diana”. By year of birth the correct order is Elizabeth I (1533) → Newton (1642) → Nelson (1758) → Lennon (1940) → Diana (1961). Task 2 on Sheet VII uses the corrected order.

CHILDHOOD & EARLY LIFE 300 – PRONOUN MISMATCH

The slide asks “Who was raised by *her* strict aunt Mimi?” but the answer is John Lennon. It should read *his*. Corrected in this pack.

NEWTON'S TEXT – THREE POINTS THAT DIFFER FROM THE HISTORICAL RECORD

(1) In the text the grandmother wants him to farm; historically it was his mother Hannah who took him out of school to run the farm. (2) A prism is a triangular *prism*, not a “pyramid”. (3) Newton's reflecting telescope (1671) impressed the *Royal Society*, which led to his election as a Fellow; there is no reliable source for the king congratulating him. The exercises test the text as written, so students are never marked wrong for these.

ELIZABETH'S TEXT – TWO CLAIMS THE RECORD DOES NOT SUPPORT

(1) The text says Shakespeare was her favourite writer. She is documented as loving the theatre, and Shakespeare and Marlowe are documented as writing in her reign; a personal favourite is not. (2) The text says the white make-up was a poison that perhaps killed her slowly. It was lead-based and it is a popular story, but the cause of her death is not known and no source establishes this. The text is printed as the teacher wrote it, like Newton's, and neither claim is used in any exercise, key or listening task on Sheets VI or XII – both are there to be discussed out loud. Two figures in the same text WERE corrected because they are simply wrong: she died on 24 March 1603 (not the 14th) and reigned 44 years (not 45).

SPELLING

The Newton text uses American spellings (“colors”) while the rest of the pack and the game use British ones (“colours”). Left as in the original. Change it in *build/content.py* if you want one convention throughout.

HOW THE PACK MAPS ONTO THE GAME

Every item on the person sheets and on the Mixed Round is built on a fact that appears on the Jeopardy board, so the handouts and the game test the same knowledge. The exception is Charles Darwin (Sheet IV) – not on your board at all, so task 5 there offers three questions you can add to it instead. Suggested order: read the sheet → do the exercises → play the game with the texts face down.

HOW THESE SHEETS RELATE TO SHEETS I–VI

These sheets do not follow the reading texts – they are free-standing Past Simple practice about the same three people, so they can be used before, after or without Sheets I–VI. Every fact was checked against the subject's Wikipedia article. Where a well-known story could not be confirmed there – Diana's ungloved handshake with an AIDS patient, her walk through the Angolan minefield – it was left out, and only the general facts are used. Newton's father is never mentioned: the reading text and the historical record disagree about when he died, and a grammar item resting on that would quietly contradict Sheet I.

MARKING THE NEGATIVES AND QUESTIONS

Both the full and the contracted form are correct: *did not like* and *didn't like* are equally right, and so are *was not* and *wasn't*. The key prints both, separated by a slash. In task 2 the capital letter at the start of a question is part of the answer.

LESSON PLAN

MONDAY 14.09.2026 · TWO AND A HALF SESSIONS · LEVEL A2

THE DAY

11.00 – 11.45	Revision: your hero + Past Simple	45 min
11.45 – 12.00	Break	15 min
12.00 – 13.35	Preparing the presentation	95 min
13.35 – 14.05	Lunch	30 min
14.05 – 15.40	Plenary · presentations · awards	95 min

BY THE END OF THE DAY STUDENTS CAN

- recall the life of Elizabeth I and re-tell it in the Past Simple
- listen to a three-minute A2 talk and take the facts out of it
- build their own criteria for **WHAT MAKES A GREAT PERSON** and defend them
- find evidence for and against Elizabeth's greatness in what she actually did
- give a ten-minute team presentation in English with a clear line of argument
- judge other teams against the same criteria and vote for the award winners

ON THE TABLE BEFORE YOU START

SHEET VI	Elizabeth I – reading, exercises, board call-backs	1 per student
SHEET XII	Past Simple on Elizabeth I	1 per student
LISTENING SHEET	“The Queen Who Said No” – worksheet	1 per student
AUDIO SCRIPT	read aloud by the teacher – keys on the back	teacher only
GREAT PERSON SHEET	criteria, evidence grid, the greatness test	1 per student
PRESENTATION KIT	roles, timing plan, sentence frames, checklist	1 per student
FEEDBACK CARDS	cut into four · voting slips at the bottom	1 per student
CERTIFICATES	cut in half · fill the names in at lunch	4 per group
ANSWER KEYS	reading key and grammar key from the pack	teacher only

NOTES FOR THE TEACHER

IF YOU ARE RUNNING LATE

Cut “The greatness test” to five minutes and set task 2 of the grammar sheet as homework. Do not cut Rehearsal 1 – an unrehearsed ten minutes always becomes fourteen.

SESSION 1 · 11.00 – 11.45 · REVISION AND PAST SIMPLE

11.00	5'	WARMER · THREE FACTS	PAIRS
Books closed. In pairs, write down everything you remember about Elizabeth I in three minutes. Then count: the pair with the most <i>correct</i> facts wins.			
11.05	10'	READING RECALL	IND → CLASS
Sheet VI, page 2, task 1 (True / False / Not Given). Students may re-read page 1 first for two minutes, then close it. Check as a class; ask “which paragraph?” every time.			
11.15	13'	LISTENING · THE QUEEN WHO SAID NO	IND → PAIRS
Listening sheet. Task 1 (words) before you read anything aloud. Read the script once at normal speed – students do task 2 only. Read it a second time, slightly slower, pausing at the marks – students do tasks 3 and 4. Check in pairs, then as a class.			
11.28	12'	PAST SIMPLE	IND → PAIRS
Sheet XII. Task 1 (choose a, b or c) against the clock – six minutes, then swap sheets and mark. Task 2 (verbs in brackets): items 1–5 now, 6–10 as homework if time is short. Board the three shapes: was/were · -ed / irregular · did + infinitive .			
11.40	5'	SET THE BIG QUESTION	CLASS
Write on the board: WHAT MAKES A GREAT PERSON? Each student writes one word that must be in the answer. Collect the words on the board – do not discuss them yet. Tell them these words come back after the break.			

SESSION 2 · 12.00 – 13.35 · PREPARING THE PRESENTATION

12.00	12'	MY CRITERIA	IND → TEAM
Great Person sheet, task 1. Alone: tick your five. In the team: agree on three and write them in the box. The team must be able to say why each one is in and why one popular word was left out.			
12.12	18'	EVIDENCE HUNT	TEAM
Great Person sheet, task 2. Go back to Sheet VI and the listening. For each criterion find something Elizabeth <i>did</i> , with a year. No year, no evidence.			
12.30	10'	THE GREATNESS TEST	TEAM
Great Person sheet, task 3. Four things Elizabeth really did – two that look great and two that do not. Rate each one against your own criteria. This is where the presentation gets its honesty, and it is what separates a report from an argument.			
12.40	10'	ROLES AND THE CLOCK	TEAM
Presentation kit, page 1. Fill in the timing plan with real names. Six roles, ten minutes. Everybody speaks. Nobody speaks for more than two and a half minutes.			
12.50	25'	WRITE YOUR PART	IND
Presentation kit, page 2. Each student drafts their own part using the sentence frames. Teacher circulates and corrects Past Simple forms only – leave everything else.			
13.15	15'	REHEARSAL 1	TEAM
Full run with a stopwatch. One student holds the checklist and ticks. Stop at ten minutes even if they are not finished – that is the point of the exercise.			
13.30	5'	FIX LIST	TEAM
Three things to change, written at the bottom of the kit. Not more than three.			

SESSION 3 · 14.05 – 15.40 · PLENARY, PRESENTATIONS, AWARDS

14.05	5'	SET UP	CLASS
Hand out the feedback cards, one per student, already cut. Explain the three awards and that everyone votes at the end.			
14.10	70'	PRESENTATIONS	PLENARY
About ten minutes per team plus two minutes of questions. The audience fills in one feedback card per team. Teacher keeps time visibly and does not interrupt.			
15.20	10'	VOTING AND COUNTING	CLASS
Students tear off the three slips and post them. Two students count while the teacher gives whole-class feedback on the English – three things that worked, three to fix.			
15.30	10'	AWARDS AND CLOSE	CLASS
Read out the certificates. One or two “most active” per group, the debate winners and the winners of the game. Close by reading three of the morning’s words from the board and asking whether the day changed anybody’s answer.			

NOTES FOR THE TEACHER

THE DIFFICULT SENTENCE IN THE AUDIO

The script says that Elizabeth’s father had her mother killed. That is what happened: Anne Boleyn was beheaded on 19 May 1536, when Elizabeth was two years and eight months old. Say it plainly, do not dwell on it, and move on to what the child did next – she studied.

THE TILBURY QUOTATION

“I know I have the body but of a weak, feeble woman; but I have the heart and stomach of a king” – Tilbury, 9 August 1588. Most historians accept the speech as genuine; a minority doubt the text. If a student asks whether she really said it, the honest answer is “probably, and that is a good question”.

TWO FACTS THE ORIGINAL CLASS TEXT HAD WRONG

Elizabeth died on

24

March 1603, not the 14th, and she was queen for

44

years, not 45 (17 November 1558 to 24 March 1603). Both are corrected on every sheet in this pack.

THE AWARDS, IN ORDER

Read the certificate out, say the one thing the person did that earned it, then hand it over. One or two “most active” per group as agreed, then the debate winners, then the winners of the game. Keep it to ninety seconds a name – the applause is the reward, the paper is the souvenir.

CLOSING THE INTENSIVE

Go back to the board and read out three of the words the group wrote at 11.40. Ask one question and stop: *after today, would you keep your word, or change it?* Take three answers. Do not sum up for them.

THE QUEEN WHO SAID NO

LISTENING · A2 · YOU WILL HEAR THE TALK TWICE

1 BEFORE YOU LISTEN

Match the word to its meaning. Write a–h.

- | | |
|---|---|
| 1. ☐ a palace | a. a tall building – this one was a prison |
| 2. ☐ a tower | b. to put a crown on a new king or queen |
| 3. ☐ to crown somebody | c. a story that actors show in a theatre |
| 4. ☐ a fleet | d. when you can decide things and other people must do them |
| 5. ☐ brave | e. a very big house where a king or a queen lives |
| 6. ☐ power | f. not afraid of danger |
| 7. ☐ free | g. a large group of ships |
| 8. ☐ a play | h. when you can go where you want |

2 FIRST LISTENING

Tick the FIVE things the talk speaks about.

- | | |

AUDIO SCRIPT

READ ALOUD BY THE TEACHER · FOR THE TEACHER ONLY

A2 · about 310 words · 3 minutes at reading speed · read twice: once at normal speed, once pausing at ||

- 1 Hello, and welcome to *Great Lives*. Today: a queen who ruled England for forty-four years. ||
- 2 Elizabeth was born on the seventh of September, fifteen thirty-three, at Greenwich Palace, near London. Her father was King Henry the Eighth. Her mother was Anne Boleyn. When Elizabeth was two years old, her father had her mother killed. People said the little girl was not a real princess. ||
- 3 But Elizabeth was clever. She studied with a famous teacher, Roger Ascham. She learned Latin, French and Italian. She read and she read and she read. ||
- 4 Life was not safe. In March fifteen fifty-four her sister Mary sent her to the Tower of London. Elizabeth stayed in the Tower for about two months. After that she lived in the country for almost a year, and soldiers watched her door. She was not free. ||
- 5 Everything changed in fifteen fifty-eight. Mary died, and on the seventeenth of November Elizabeth became queen. She was twenty-five years old. In January fifteen fifty-nine they crowned her in Westminster Abbey. ||
- 6 Many men wanted to marry her. Kings and princes sent her letters and pictures. Elizabeth said no. She said no to all of them, and she kept the power herself. Today people call her the Virgin Queen. ||
- 7 In fifteen eighty-eight the King of Spain sent a great fleet of ships – the Armada – against England. Elizabeth went to Tilbury and spoke to her soldiers. She said: “I know I have the body but of a weak, feeble woman; but I have the heart and stomach of a king.” The Armada lost. ||
- 8 Elizabeth loved the theatre. In her time William Shakespeare and Christopher Marlowe wrote their plays, and people still watch them today. ||
- 9 Elizabeth died on the twenty-fourth of March, sixteen oh three, at Richmond Palace. She was queen for forty-four years. King James of Scotland became the next king of England. ||
- 10 So – what makes a great person? Think about Elizabeth. She was clever. She was brave. And she said no.

HOW TO READ IT

First reading: normal speed, no stopping, students only tick task 2. Second reading: slow down a little and pause where you see ||. If the group is weak, read paragraph 7 a third time on its own – the quotation is the hardest line on the sheet.

5 AFTER Open answers. Item 3 is the one to push on: the talk really does leave out everything difficult, and noticing that is the skill the afternoon needs.

WHY ITEM 7 OF TASK 3 IS NOT GIVEN

The talk says Shakespeare wrote his plays in her time. It never says she met him or wrote with him. Students who answer F are reading the world, not the text; students who answer T are reading a film. Both are worth thirty seconds of discussion.

IF YOU WOULD RATHER NOT READ IT YOURSELF

The script is plain text and works in any text-to-speech tool; a British English voice at 0.9 speed is close to the timing above. There is no recording in this pack.

THREE MORE WAYS TO USE THE SAME SCRIPT

1 · RUNNING DICTATION · 8 MINUTES

Cut the script into its ten paragraphs and tape them to the walls. One student in each pair runs, reads, comes back and dictates; the other writes. Swap after every paragraph. Then they compare their text with the real one and count the differences. It is loud, and it is the fastest reading-and-spelling exercise there is.

2 · SHADOWING PARAGRAPH 7 · 4 MINUTES

Read the Tilbury paragraph one line at a time; the class repeats it back at the same speed and with the same stress. Then one volunteer stands up and says the quotation alone. Nobody forgets a sentence they have said standing up.

3 · RETELL RELAY · 6 MINUTES

Books closed. Student 1 gives one sentence of the life, in the Past Simple. Student 2 gives the next. Any wrong tense and the chain goes back to the start. Three complete chains and the group owns the story.

WHERE THE FACTS COME FROM

CHECKED ON 13.09.2026

Every date, name and number in the script is in the English Wikipedia article “Elizabeth I”: born 7 September 1533 at Greenwich Palace; Anne Boleyn beheaded 19 May 1536; tutored by Roger Ascham; sent to the Tower on 18 March 1554 and moved to Woodstock on 22 May; queen from 17 November 1558, crowned 15 January 1559; the Armada defeated in 1588; Shakespeare and Marlowe writing in her reign; died 24 March 1603 at Richmond Palace; succeeded by James VI of Scotland. The Tilbury quotation is from the article “Speech to the Troops at Tilbury”, 9 August 1588 – accepted as genuine by most historians, doubted by a minority. The class text’s “14 March” and “45 years” are wrong and are corrected here.

WHAT MAKES A GREAT PERSON?

SESSION 2 · BUILD YOUR CRITERIA, THEN TEST THEM

1 YOUR CRITERIA

Tick five alone. Then agree on three as a team.

- | | |
|---|---|
| ☐ courage – doing the right thing when it is dangerous | ☐ changing other people's lives for the better |
| ☐ intelligence – seeing what other people do not see | ☐ being honest, also when it costs something |
| ☐ hard work – years of it, not one good day | ☐ being famous – everybody knows your name |
| ☐ kindness – caring about people with no power | ☐ having power – you can decide things |
| ☐ never giving up | ☐ being remembered a long time after you die |

OUR TEAM'S THREE CRITERIA	WHY THIS ONE AND NOT ANOTHER?

2 EVIDENCE HUNT

No year, no evidence.

#	CRITERION	WHAT ELIZABETH ACTUALLY DID	YEAR
1			
2			
3			

**3 THE GREATNESS TEST***Four things she really did. Score each 1–3 against YOUR criteria.*

1. She said no to every marriage and kept the power herself (1558–1603). 1 2 3 ☐ ☐ ☐
Nobody ruled England through her. But she had no child, and after her death the crown went to Scotland.
2. She sent her ships against the Spanish Armada and spoke to the soldiers herself at Tilbury (1588). 1 2 3 ☐ ☐ ☐
England won. But the war was expensive, and she was careful with money for her soldiers afterwards.
3. After the rising in the north of England in 1569, more than 750 people were executed on her orders. 1 2 3 ☐ ☐ ☐
She kept the country quiet. Think about the price.
4. From 1581, to make an English person a Catholic was treason, and treason meant death. 1 2 3 ☐ ☐ ☐
She said it was about the state, not about God. Her enemies said it was about God.

4 BOTH SIDES*A team that cannot argue the other side has not understood its own.*

Motion: **“Elizabeth I was a great person.”** Write three arguments on each side. You will need the right-hand column when you present.

FOR – BECAUSE SHE ...	AGAINST – BUT SHE ...

WHERE THE HARD FACTS IN TASK 3 COME FROM

Where the hard numbers in task 3 come from: the 750+ executions after the 1569 Rising of the North and the 1581 treason law are both stated in the Wikipedia article “Elizabeth I”, which also records that she at first resisted calls for the execution of Mary, Queen of Scots, signed the warrant in 1586, and afterwards blamed her secretary for sending it – and that historians have questioned how sincere that was. The article also notes that economic and military problems weakened her popularity late in the reign, and that some historians read her as short-tempered and sometimes indecisive. None of this is on the reading sheet; it is here so that a team that wants to argue the hard side can be given something real.

TEN MINUTES ON STAGE

SIX ROLES · EVERYBODY SPEAKS · NOBODY RUNS OVER

1 WHO DOES WHAT

Write a real name in the last column.

1 THE OPENER	0:00 – 0:40	Name the person and ask the big question. No biography yet.	<i>name</i>
2 THE STORY-TELLER	0:40 – 2:40	Five or six moments of the life, in order, all in the Past Simple, all with years.	<i>name</i>
3 THE EVIDENCE-GIVER	2:40 – 5:00	Your three criteria, and one thing Elizabeth did for each one. Year every time.	<i>name</i>
4 THE OTHER SIDE	5:00 – 6:30	What was <i>not</i> great. One or two real examples from the greatness test.	<i>name</i>
5 THE CLOSER	6:30 – 8:00	Your team's answer to WHAT MAKES A GREAT PERSON, and where Elizabeth lands on it.	<i>name</i>
6 THE QUESTION-TAKER	8:00 – 10:00	Take questions from the room. You may ask the rest of the team to help.	<i>name</i>

2 REHEARSAL CHECKLIST

One student holds this and ticks during the run.

- | | |
|--|---|
| ☐ Every member of the team speaks. | ☐ Three criteria, three pieces of evidence, in that order. |
| ☐ Nobody speaks for longer than two and a half minutes. | ☐ At least one honest point against your own person. |
| ☐ The big question is asked in the first minute. | ☐ The last sentence answers the big question directly. |
| ☐ Every date is said out loud, not only shown. | ☐ You finish inside ten minutes. |
| ☐ Every fact about the past is in the Past Simple. | ☐ You look at the room, not at the paper. |

3 THE FIX LIST

Three things. Three.

AFTER REHEARSAL 1 – THREE THINGS WE CHANGE (NOT FOUR)

SENTENCE FRAMES – STEAL THESE

OPENING

- Our person is Elizabeth the First, Queen of England from 1558 to 1603.
- Before we begin, one question: what makes a person great?
- Today we will give you our answer, and three pieces of evidence.

TELLING THE STORY (PAST SIMPLE)

- She was born in 1533 at Greenwich Palace.
- In 1554 her sister sent her to the Tower of London.
- She became queen in 1558, when she was twenty-five.
- She did not marry, and she kept the power herself.

GIVING EVIDENCE

- Our first criterion is courage. In 1588 she ...
- This shows that ...
- We chose this criterion because ...

THE OTHER SIDE

- But not everything was great. In 1569 ...
- We have to say honestly that ...
- A great person is not a perfect person, and here is why that matters.

CLOSING

- So our answer is: a person is great when ...
- Elizabeth meets two of our three criteria. The third one is harder.
- Thank you. We are ready for your questions.

TAKING QUESTIONS

- That is a good question. Can I check – do you mean ...?
- I am not sure about the year. Maria, do you remember?
- We did not find that in our text, so I cannot answer it today.

THE ONE RULE ABOUT THE PAST SIMPLE ON STAGE

Everything that happened before today is Past Simple: *she was, she became, she did not marry, did she marry?* Everything you think *now* is present: *we think, this shows, our answer is*. Mixing the two is the single mistake the room will hear.

WHAT A TEN-MINUTE TALK IS NOT

It is not a Wikipedia page read out loud. The story of the life is two minutes of the ten. The other eight are your answer to the question, and the evidence for it.

TALK ABOUT REMARKABLE PEOPLE

FIVE SHORT LIVES · THE PHRASES YOU NEED TO DESCRIBE THEM

READ THE FIVE LIVES

The phrases in bold are the ones you have to learn.

1 ELIZABETH I · 1533–1603

Elizabeth I **was born in 1533** and **came from a royal family**; her father was King Henry VIII. She **received a very good education** at Hatfield Palace, and by the age of thirteen she spoke several languages. She became queen in 1558 and never married, because she wanted to keep the power herself. Many people say that this **influential leader changed the course of English history**. She **died at the age of 69**.

2 HORATIO NELSON · 1758–1805

Horatio Nelson **was born in 1758** and **grew up in a small village** in England. He joined the navy when he was twelve and **took part in many important battles** at sea. He lost the sight in one eye, and then he lost his right arm, but he went back to his ship. At Trafalgar in 1805 he **made history**: the British won, but Nelson **died at the age of 47**. For many people he is still **an inspiring leader**.

3 JOHN LENNON · 1940–1980

John Lennon **was born in 1940** in Liverpool, and his aunt Mimi brought him up. In 1956 he formed his first band, and later that band became the Beatles. The group **achieved great success** all over the world, and in 1965 they **won an award**: the Queen made all four of them Members of the Order of the British Empire. Lennon also **played an important role in the peace movement**, and he **is remembered for his songs**. He **died at the age of 40**.

4 PRINCESS DIANA · 1961–1997

Diana Spencer **was born in 1961** and **came from an old, rich family** – her father was an earl. She **did not study at university**. In 1981 she married Prince Charles and became **a prominent figure** all over the world. She visited hospitals, helped people with HIV/AIDS and worked to stop landmines, so she **had a strong influence on society**. She **died at the age of 36**, and people **remember her for her charity work**.

5 ISAAC NEWTON · 1642–1727

Isaac Newton **was born in 1642** on a farm in England. He **studied at university** in Cambridge, and there he **made an important contribution to science**. He **made a discovery** about light: white light is a mixture of all the colours. Today he is **best known for his discovery** of gravity, and every school book calls him **an outstanding scientist**. He **died at the age of 84**.

WORDS TO KNOW

a figure – an important person that many people know about

influential – able to change what other people think or do

a contribution – something useful that you add to a piece of work

a movement – a group of people who work together for one idea

outstanding – much better than the others

to achieve – to get something after working for it

an award – a prize or an honour that somebody gives you

society – all the people of a country, taken together

TASK 3 · THE EIGHT PHRASES IN FULL

leader – an influential ...

figure – a prominent ...

writer – a well-known ...

politician – a respected ...

scientist – an outstanding ...

musician – a talented ...

explorer – a successful ...

person – a remarkable ...

TASK 6 HAS NO KEY, AND THAT IS THE POINT

Four of the poster's phrases are not facts at all. *An influential leader, an inspiring leader, a remarkable person* and *to change the course of history* are judgements: somebody decided them. A student who writes "she was an influential leader" and stops has said nothing that can be argued with – and argued with is exactly what the intensive asks of them. Task 5 puts this in front of them; task 6 makes them pay for every opinion with a fact. If you cut anything on this sheet, do not cut those two.

WHERE THE FACTS COME FROM

The text is new, but no fact in it is. Dates, places and events come from the reading sheets in this pack, which were checked before they were printed. Two facts are used here for the first time and were checked against Wikipedia on 14.09.2026: the Queen appointed all four Beatles MBE in June 1965 ("The Beatles"), and Diana was born into the Spencer family, her father Viscount Althorp and later Earl Spencer ("Diana, Princess of Wales"). The ages at death are arithmetic from dates already in the pack: 69, 47, 40, 36 and 84.
