BEFORE YOU PRINT

WILD CARD 600 – WRONG ANSWER ON THE GAME SLIDE

The board answers “Newton → Nelson → Elizabeth → Lennon → Diana”. By year of birth the correct order is Elizabeth I (1533) → Newton (1642) → Nelson (1758) → Lennon (1940) → Diana (1961). Task 2 on Sheet IV uses the corrected order.

CHILDHOOD & EARLY LIFE 300 – PRONOUN MISMATCH

The slide asks “Who was raised by *her* strict aunt Mimi?” but the answer is John Lennon. It should read *his*. Corrected in this pack.

NEWTON'S TEXT – THREE POINTS THAT DIFFER FROM THE HISTORICAL RECORD

(1) In the text the grandmother wants him to farm; historically it was his mother Hannah who took him out of school to run the farm. (2) A prism is a triangular *prism*, not a “pyramid”. (3) Newton's reflecting telescope (1671) impressed the *Royal Society*, which led to his election as a Fellow; there is no reliable source for the king congratulating him. The exercises test the text as written, so students are never marked wrong for these.

SPELLING

The Newton text uses American spellings (“colors”) while the rest of the pack and the game use British ones (“colours”). Left as in the original. Change it in *build/content.py* if you want one convention throughout.

HOW THE PACK MAPS ONTO THE GAME

Every item in tasks 1–5 on Sheets I–III#8211;5 on Sheets I–III, and every item on Sheet IV, is built on a fact that appears on the Jeopardy board, so the handouts and the game test the same knowledge. Suggested order: read the sheet → do the exercises → play the game with the texts face down.
